2 The Sanitary Commissioner in his letter no 4695 dated the 11th October of, recommended that vaccination should be performed by qualified Hospital Assistants and they should receive the same pay as they receive in the Medical department with Rs 10/- for house allowance. He also suggested that the Hospital Assistants after an active service of 3 years, as public vaccinators, may be reported to the Medical department. To begin the experiment on a small scale he recommended the appointment of two Medical men as public vaccinators in the place of the existing 6 vacancies amongst the existing vaccinators. The above proposal was sanctioned in Govt. P.O. no.

SIR,

+

In continuation of my letter No. 4896 dated the 14th Instant, I have the honor to add, as pertinent to the recommendation made therein, that the scheme for replacing the existing men by Sub Assistant Surgeons designated as Public Vaccinators - though ideally an excellent scheme - has to be dropped for the present, owing to the paucity of qualified hands to take up the places. To the advertisement published in the Daily Post, the Hindu and the Madras Mail inviting applications for the post, only one individual responded: and the man, on presenting himself before me, was honest enough to confess that his services were dispensed with by the Madras Government and that he could find no employment elsewhere!

I have the honor to be,
Sir,
Your most obedient servant,

P.S. Achyuta Rao
